

## **Sharon Chamberlain** **CEO Northern Nevada HOPES**

Sharon Chamberlain has served as the Chief Executive Officer at Northern Nevada HOPES since August 2011. Under Sharon's leadership, HOPES has evolved from a small HIV service organization serving 600 patients, to a growing innovative community health center that serves nearly 11,000 men, women and children across the region. In 2015, Sharon oversaw the construction and opening of HOPES' new 38,000 sq. ft. integrated care facility – The Stacie Mathewson Community Wellness Center – which opened in 2016. Since then, HOPES has expanded its services to include pediatric primary care, x-ray and diagnostics, legal services, financial empowerment coaching, as well as having greatly expanded behavioral health, adult primary care, transportation, pharmacy and medication delivery services, and most recently, addressing our region's housing crisis by opening Hope Springs, Reno's first and only bridge-housing community.
